Malaysian SDG Cities: Opening Ceremony for SDG – The Nordic Way!

8 March 2022

The Nordic cooperation with Malaysian cities was crucial in advancing the sustainable development goals at both national and international levels. In the cooperation with Malaysian cities and its private sector industries, the Nordic region hopes to work closely with Malaysian stakeholders on climate change, biodiversity and circular economy as Malaysia positions itself as a future oriented society in tackling global challenges together.

## 10 March 2022 Beyond Growth: Financing Sustainability to Build Back Better

Delivering on the ambitious SDGs is a formidable challenge for countries at every stage of development. In addition, for the SDGs to be the primary responsibility and to be truly owned by the developing countries, the goals clearly need to be adapted to local contexts. The panel discussion aims to bridge the thematic ideas of the published book with the current realities of building back stronger from the pandemic.

# Prime Minister Datuk Seri Ismail Sabri: Malaysia reiterates commitment to sustainable development of water sector

23 March 2022

Malaysia is committed to developing its water sector in a sustainable manner, in line with the United Nations (UN) Sustainable Development Goals (SDG), said Datuk Seri Ismail Sabri Yaakob. The Prime Minister said Malaysia was among countries committed to the SDG objectives, which were adopted by the UN in September 2015 for fulfilment by 2030. "This commitment can be seen in the steps taken to incorporate SDG strategies through the introduction of the Green Technology Master Plan in 2017."

Learning from experiences transparency for climate action

This project was designed to increase the capacity of developing countries to collect, analyse and disseminate forest-related data. These efforts would in turn enhance reporting and transparency. In this webinar, "Learning from experiences to increase forest data transparency for climate action" will highlight key results of the project, including main messages and the products and events used to promote capacity building and knowledge exchanges.

#### 30 March 2022 Climate Ambition Accelerator 2022 Information Session

to

The Climate Ambition Accelerator is a six-month accelerator programme for companies participating in the United Nations Global Compact, making progress towards setting science-based emissions targets and create a clear path to address their organisation's transition to net-zero. The Climate Ambition Accelerator aims to scale-up credible climate action across companies of all sizes, sectors and regions, enabling them to deliver on meaningful commitments to reduce emissions at scale.
